

## FORESTY CHAINS

*BEER TYPE GT and GS are produced from high alloy steel. Vital gripping and protective elements are forgings. By a special procedure of heat-treatment (carbonitriding) an extreme hard surface and a tough core of all elements are achieved.*

*Consequently, the chains endure big loads and are distinguished for being wear-out-resistant. They made the ride comfortable, effective, economical, safe, and ecologically acceptable.*

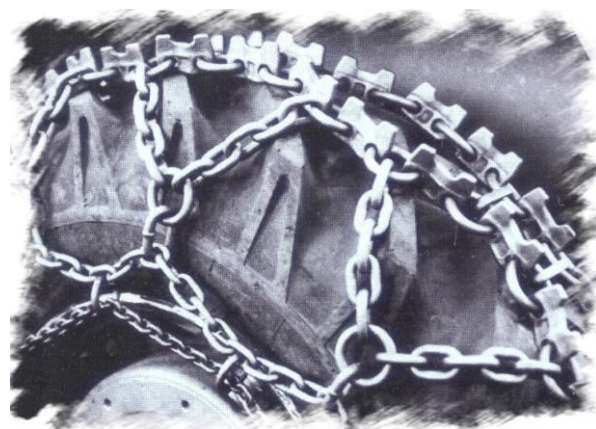

### **BEER TYPE GT**

is intended for application in the most pretentious conditions. This type is effective on stony, snowy or wet ground. It enables optimal driving properties and tyre protection on the surface coming in contact with the ground as well as on the side surface. The chain is optimally tightened on the tyre by a simple system. For application on soil, loam or damp ground we recommend more loosely flitted chains. With the chains BEER TYPE GT the following advantages are achieved: minimal side-slipping, smooth running under shock loads on the machine, considerably smaller wear-out and damages on the tyre, quiet ride and negligible damage of the roads and undergrowth.

### **BEER TYPE GS.**

*BEER TYPE GS has retained most of the good properties of the type GT. It is a little lighter due to the less thick net both on the part coming in contact with the ground and the side part. It should be applied on the ground where heavy damages of the tyre are not probable. The net construction provides a good self-cleaning system in the mud and loam.*

**TRADE d.o.o. PREDDVOR; SLOVENIJA**

**FOR THE TYRE SIZES GIVEN BELOW WE RECOMMEND THE FOLLOWING TYPES OF CHAINS:**

<b>TYRE SIZE</b>	<b>GS11</b>	<b>GT11</b>	<b>GS14</b>	<b>GT14</b>
9,5/9 x 24	✓	✓		
11,2/10 x 24	✓	✓		
12,4/11 xx 24	✓	✓		
13,6/12 x 24	✓	✓		
14,9/13 x 24	✓	✓		
16,9/14 x 24	✓	✓		
18,4/15 x 26		✓	✓	✓
23,1/18 x 26		✓	✓	✓
11,2/10 x 28	✓	✓		
12,4/11 x 28	✓	✓		
13,6/12 x 28	✓	✓		
14,9/13 x 28	✓	✓		
16,9/14 x 28	✓	✓	✓	✓
14,9/13 x 30		✓	✓	✓
16,9/14 x 30		✓	✓	✓
18,4/15 x 30			✓	✓
12,4/11 x 32	✓	✓		
16,9/14 x 34			✓	✓
18,4/15 x 34			✓	✓
12,4/11 x 36		✓	✓	
23,1 x 34			✓	✓
13,6/12 x 38		✓	✓	

*Chains for other tyre sizes to order.  
When ordering you are requested to state also  
the type and the producer of the tyre.*

**FORESTRY CHAIN ZX-K** is made for tractors in forestry and building. The area of the net coming in contact with the ground contains special gripping elements which essentially enlarge manipulation abilities of the tractor. The net construction enables safe work especially in the forest with prevailingly very damp and soft ground. Less suitable for hard and stony ground.

**SIZE PROGRAMME:**

- 17,50-25
- 18,4/15-26
- 23,1-26
- 23,1/18-26
- 18,4/15-30
- 16,9/14-30
- 16,9/14-34
- 18,4/15-34
- 16,9/14-38

*Chains for other tyre sizes to order.*
